

'Sendai' is a new 6-weight typeface family, designed by British type designer Philip Kelly. The typeface is comfortable in text usage with the slightly condensed shapes that help save space and also achieve punchy display headlines. The restrained serifs are a nod to the Latin styles of the past.

Regular *Regular Italic* Medium *Medium Italic* Bold *Bold Italic*

The fonts are available exclusively from Philip Kelly Digital Design directly. The fonts are supplied in OpenType Postscript format which is Mac and Windows compatible.

'NOODLES'

Noodles are usually referred to as 'Ramen' in Japan.

They are very popular and come served in a wide variety of styles that have regional variations.

'NIPPON'

The formal name for Japan.

'Nihonjin'

Means Japanese person.

'Netsuke'

Small sculptures that are part of traditional clothing. They evolved into an art form and are highly sought after by collectors all over the world. Netsuke are usually made of wood or ivory.

'NAHA'

The capital city of Okinawa, the islands in the far South. Japan has a wide range of climates. Hokkaido in the colder North, to the sub tropical Okinawa. Temperatures there are usually over 20° C all year.

'NŌ'

The ancient classical Japanese drama from the 14c. A performance can last a whole day, with highly decorative costumes and masks.

'Neko'

Their word for 'cat'.

'Nikko'

A city almost in the centre of Japan.

Sendai city dates from its founding in 1600 by Date Masamune (September 5, 1567 - June 27, 1636). Before that, Sendai was just a small fishing village. He was a samurai who led his first campaign at the age of 14 in 1581. He presented an imposing figure with a large crescent moon on top of his headgear and his one eye. Unlike other local lords (daimyo), he tolerated the Christian missionaries. He was the first daimyo to have a ship built to send an expedition overseas. The ship visited the Philippines, Mexico, Spain and Rome. 'Date' is his surname. It is customary to write Japanese family names in 3-2-1 order.

THE DATE CLAN

Learning Japanese often causes us confusion and some humour for the Japanese as we 'Gaijin' (foreigners) struggle with their language. Japanese is said to be no more difficult to learn than say Italian. However, the writing system is the major hurdle for Westerners to get to grips with. It has three integrated parts: 'Katakana' (for emphasis or non-native words). 'Hiragana' (a phonetic alphabet of simplified characters). 'Kanji' (the very important complex character system adapted from Chinese). A child needs to master a few thousand kanji to read a newspaper and the learning process begins at an early age.

A large, stylized letter 'S' in a light pink color with a darker pink outline, set against a dark pink background. The 'S' has a classic, slightly condensed serif font style with a 'tip of the hat' at the top and bottom curves.

Sendai, a typeface
family in 3 weights
with italics

Slightly condensed,
with a tip of the hat to
the Latin serifs of old

Designed by UK type
designer Philip Kelly

Every year there is the Sendai Tanabata Festival, the biggest in Japan, attracting some two million visitors. The city dates from its founding in 1600 by Date Masamune (September 5, 1567 - June 27, 1636). He was a samurai who led his first campaign at the age of 14 in 1581.

Sendai is only about two hours travelling time on the high speed 'Shinkansen' (Bullet Train) from the capital Tokyo.

I named my typeface Sendai because, like the city, it is business-like and practical and a touch conservative...but also incorporates a hint of fun. My wife comes from Minami (South) Sendai and I have enjoyed visiting the area many times.

My Sendai does not go back quite as far as 1600! It was conceived around 2001 and has been developed slowly ever since as time would permit between client's projects. The typeface began its life with larger, more Latin-like serifs. The quirky h, m, n, and r 'shoulders' came later; likewise the 'roll-arounds' on the B, D, P, R, b, d, p and q. I wanted the design to be slightly condensed to help with economical text setting, but not so condensed that legibility would suffer. The slight condensation also makes for punchy display settings such as book jackets where space can be tight.

(Sendai Regular & Italic - 11 points)

Up to 100 computers: 10 licenses.

Up to 200 computers: 15 licenses.

Up to 500 computers: 30 licenses.

Up to 1000 computers: 50 licenses.

You can purchase additional licenses at any time.

The number of output devices is not restricted, provided that these devices do not store the font software permanently.

Restrictions

You may install and use this font software for the purpose of reproducing typeface designs. You may take a copy of the font software to a commercial printer or service bureau for printing your documents only if the printer or service bureau has purchased a license to use that particular font software (documents with embedded fonts see Embedding). You may not sell, rent, lease, sublicense, give, lend, or further distribute the font software or any copy thereof. You agree that you will not distribute any part of the software through any online service, on the Internet, CD-ROM or DVD. These require the purchase of a Special License. The Font Software may not be installed or used on a server that can be accessed via the Internet or other external network system (a system other than a LAN) by Workstations, which are not part of a licensed area. Fonts used with a server based application require a Special License Extension for Servers. If your printed publications contain an imprint, the names of the font and the foundry have to be mentioned, e.g. 'Type set in "Sendai Regular" from Philip Kelly Digital Design'.

Copyright

You agree that the font software is owned by Philip Kelly Digital Design, and its structure, organization and code are the valuable trade secrets of Philip Kelly Digital Design. You acknowledge that the software is protected by the United States Copyright Law, by the copyright and design laws of other nations, and by international treaties. You agree to treat the font software as you would any other copyrighted material, such as a book. You may not copy the font software, with the exception of making one (1) unmodified copy for personal archival purposes only. You agree not to modify, adapt, convert, translate, reverse engineer, decompile, disassemble, alter, or create derivative works of the font software. By purchasing a license you accept that Philip Kelly Digital Design retains the "Intellectual Property Rights" of the font software.

Embedding

You may embed Philip Kelly Digital Design font/s into documents for in-house use. You may take a document with embedded Philip Kelly Digital Design font/s to a commercial printer or service bureau for printing as a PDF only, unless the commercial printer or service bureau also has purchased a license. To publish

documents with embedded fonts (e.g. on Web or CD Rom or DVD) you need a special license agreement, depending on the technology used and the scale of publishing.

Warranty
